

Ready to board a tech rocket?

Head of Operations (Co-pilot)

Initially based in Kampala

Deadline: 22Oct

Mission

Our goal is to empower small business owners across Africa to grow their business and fulfil their dreams.

Product

Sellio's marketing automation & customer service AI enables small businesses to run adverts on Facebook, post offers on different eCommerce platforms, and generate sales - all on autopilot.

Team

We are a small group of diverse, capable, and dedicated individuals with a passion for tech and small business development. We take bets on people that are different and that want to create something big and meaningful.

Partnerships

Sellio has recently entered a scaling partnership with Facebook and is in discussion with African eCommerce players to further enhance growth. We aim to hit 10'000 clients by end-2018.

Requirements

- Min. 8 years of work experience covering similar responsibilities as outlined on the right
- Min. 4 years experience in managing teams
- Experience in steering a startup through a fast growth phase (successfully or not)
- Track record of managing operations
- Serious long term commitment to Sellio
- High energy yet reflective person
- Team-oriented and proactive working style
- Having lived and worked in SSA for many years. Ideally, a national of EAC
- Ideally, a tech/programming background
- Ideally, experience in B2B startups

Responsibilities

- Oversee and manage key Sellio operations
- Help founders take strategic decisions
- Support CEO in managing team
- Support founders in hiring
- Identify and develop strategic partnerships
- Guide technologists & designers to prioritize features in line with client needs
- Analyse market trends and guide accordingly
- Manage internal systems, e.g. Quickbooks

Compensation

Competitive salary and equity package
